

RECEIC Roundtable on

“Collaborative Actions for Resource Efficiency & Circular Economy Transition”

6th December 2024, FICCI Federation House, New Delhi

Introduction:

Since its launch last year under India's G20 Presidency, the **Resource Efficiency and Circular Economy Industry Coalition (RECEIC)** as an industry-led platform has been instrumental in facilitating dialogues, knowledge exchange & collaborations with specific focus and involvement of value chain players leading actions on ground. Designed to champion resource efficiency and circular economy principles, RECEIC has now become a pioneering coalition with 50 global industries as its members as on date. We have made considerable progress, with establishment of three focused working groups on Packaging Reimagined, Material Transition in Chemical sector & Circularity in Used Oil sector, that address key industry challenges, drive sustainable practices, and catalyze impactful change through collaboration & partnership.

In line with our commitment to fostering meaningful industry advancements, we are pleased to announce *RECEIC roundtable on “Collaborative action for Resource Efficiency & Circular Economy Transition”* to discuss progress made and way forward to ensure collective progress and strategic alignment for sustainable growth.

Smt. Leena Nandan, Secretary, Ministry of Environment, forest and Climate Change (MoEFCC), will join as the Chief Guest and will release RECEIC – Deloitte first Knowledge paper i.e. **Compendium of Circular Business model”** to foster and inspire efforts towards circular transition.
